P.S. I don't kiss and tell but if you think this Thank You note helps someone, By all means you may use it.

What up with y'all?? Apr ??, 20

Pray these few lines find whoever was responsible for sending that care package to me. And as I wait to say Thank You!!!

That was cool and I appreciate it.

Often being wrongly convicted with false hope in my so-called peers, then I'll do stuff like this at a time when the television is trying to tell me everybody is on something, up to something or not paying attention. I'm not sway by the Big Banks agenda and believe what you put in the world is what you get out of it. I appreciate the positivity and light you threw my way and you had my word that I in turn will pass it on. Thank again.

Sincerely Herb
